Alzheimer's Care

Our memory impairment area, known as Shelter Point Alzheimer's Center, is a self-contained unit that provides for all stages of dementia. Recognizing that the traditional nursing home setting is not well suited for the Alzheimer's resident, we developed a warm, home-like area to enhance the quality of life. This allows them more personal freedom as possible, yet remaining conducive to their needs for security and safety.

- Private and Semi-Private room accommodations - in secure unit
- Higher staff to resident ratio
- Attractively decorated lounge and dining areas encourage socialization
- Spacious corridors allow residents in wandering stage freedom of movement
- Finger foods help maintain independence
- Successful bowel and bladder program for longer periods of continence
- Activities are held in a calm, structured environment and geared to their cognitive levels
- Ongoing family support from our on-staff licensed psychiatrist
- Full-time Activity Director
- Secure garden courtyard

New upgrades including: carpeting and hardwood flooring, lighting and new furniture, bringing our facility back to a state of modern elegance.
